

Stretching from Deep Cove in the east to the Capilano River Canyon in the west, the District of North Vancouver is characterized by innovative municipal government that maintains and enhances the quality of life for its residents and businesses. Fuelled by the District's award-winning vision to build vibrant and sustainable communities for people of all ages and backgrounds, the District offers exciting professional development opportunities and an excellent total compensation package. A flexible, family-friendly employer with an inclusive work place culture, we are looking to fill this position. Come work for one of **BC's Top Employers** and contribute to making this a great place to work!

A challenging opportunity exists with the Engineering, Parks & Facilities Division for a Project Engineer-Facilities. Your primary responsibilities will be to provide professional oversight and project management for a range of technical projects and initiatives relating to the reliability and performance (both comfort and energy) of our municipal buildings. Projects will include major maintenance, renewal, upgrading, energy optimization, and commissioning of building systems such as HVAC, electrical, plumbing, security and controls. You will be responsible for delivering projects within scope, on schedule, and within approved budgets. You will provide professional engineering advice and support of a technical nature to the Facilities team and building user groups with respect to building systems and performance. This position also involves the review and analysis of overall building operations to improve occupant comfort and identify opportunities to improve energy savings; as well as oversight of building commissioning / re-commissioning activities.

The ideal candidate will be a Professional Engineer, or be eligible for registration as a Professional Engineer in a related discipline with significant relevant experience in project management and building performance, based on sound knowledge of mechanical & electrical building systems and the principles of energy management.

If you have what we're looking for and enjoy working in a fast paced environment with a group of enthusiastic and dedicated people, we want to hear from you. Please apply on-line with your resume and cover letter at www.dnv.org/careers by November 18, 2018.

We thank you for your interest in employment with the District of North Vancouver and advise that only those candidates invited for an interview will be contacted.
