

Benchmarks Exchange: BEX

IFMA BC would like to actively encourage all IFMA members that are responsible for managing facilities to consider making the minimal investment of entering their building or portfolio information into the IFMA Benchmark Exchange. By entering your building or portfolio data into the system you will be provided with free access to the system. The Benchmarks Exchange provides FMs with access to comparative building data on a variety of topics that will provide you with the information necessary to make better decisions. The BEX will provide a valuable resource in BC and across Canada if our membership takes the time to enter their data.

BEX is now open for use collecting your facility survey data:

- CURRENT SURVEY: IFMA's Benchmarks 6 - Annual Facility Costs
- COMING NEXT: Operations & Maintenance Benchmarks
- COMING SOON: Space & Project Management Benchmarks
